25 years old

Tehran, Iran

Work Expriences

Technical Manager

ParsIoT startup (ParsiotCo.ir)

2016 To Present

Parsiot consists of 5 students of Iran University of Science and Technology, one of the prestigious universities in Iran. We started on researching about IoT ecosystem and after 5 months of investigation about IoT, We found Location-based Systems(LBS) as one of the future IoT trends, Specially Indoor Positioning Systems(IPS). So from 3 years ago, We've worked on developing BLE, Wi-Fi and Motion Sensor based IPS solutions. I've worked as a research engineer and backend developer. In addition, I manage the 4-person programming team, too.

Web Developer
Freelancer

2015 to 2016

I'd worked with some of my close friends on developing web sites. I was a Django developer and I'd got familiar with web developing steps and freelancing projects.

Education

1. Master of Computer Science, Hardware as Area of Interest

   2013- 2016

2. Master of Computer Networks Engineering

   2019- 2019

Main Skills

★★★★☆
Reasearch and Development

- Indoor Positioning Systems

★★★☆☆
Golang Programming

- 2 years of experiences
- Gin Web Framework

★★★★☆
Python Programming

- 6 years of expriences
- Writing scripts and snippets
- Django Web Framework

Side Skills

★★★☆☆
Web Penetration Testing
- CEH
- Web App Pentest
- Kali linux
  Tools like Burp suite ،Metasploit،
  Acunetix ،Nmap and …

★★☆☆☆
Developing Wireless Networks

- MikroTik MTCNA
- MikroTik MTCWE

★★☆☆☆
Web Developing Basics

- JS & Jquery
- HTML & CSS

★★★★☆
Linux Basics

★★★☆☆
Android Programming

LPIC 1

Native by Java

Languages

- **English** ★★★☆☆
- **Persian** ★★★★★

Personal Intresets

- I like video games
- Interested in Chatting and Talking
- Witty!
